## OCEAN OC85 Interior glass partition walls

The SKANDI-BO OCEAN OC85 glass partition is a framed glass wall solution offering one of the slimmest solutions in the market. The products are available as DNV MED/EC classified wall constructions from B0 to A60 or non rated

### Advantages:

- Extremely slim aluminium profile design
- Lowest possible weight in the market
- Easy and fast installation to bulkhead by welding or screws

### Specifications

- Aluminium profile system SKANDI-BO OC85 in standard RAL colours or anodized
- Fire protective glass from 16 mm to 27 mm as standard depending of the fire class
